S U M M A R Y

As an aspiring front-end designer, I bring a strong passion for creating engaging and intuitive user experiences to every project I work on. My skills include proficiency in HTML, CSS, and JavaScript, as well as experience with popular front-end framework, React.

In addition to technical skills, I have a keen eye for aesthetics and an understanding of design principles, which allows me to create visually appealing interfaces that prioritize user experience.

I am eager to apply my knowledge and skills in a real-world setting and to continue to learn and grow as a designer. I am excited about the opportunity to work as an intern and contribute to projects, gaining valuable experience in the field.

STUDENT ASSISTANT – MULTIMEDIA DESIGN

Støttestrømpen, Kastrup, 2022 – current

My job as student assistant has given me valuable experience in many different areas within design and e-commerce.

I have been responsible for email marketing, general updates in CMS-system, SOME and design, photography and launch of products.

SELF-EMPLOYED MUSICIAN AND ARTIST

Felicia Eliza, Copenhagen, 2018

Since receiving my first class BA(Hons) degree in professional musicianship, I have performed on cruise ships in the US, and I am now a self employed musician in Copenhagen and surrounding areas post covid.
